**STATEMENT OF UNINTENTIONALLY DELAYED CLAIM OF BENEFIT**  
**UNDER 35 U.S.C. 120**

In the above-identified application, a claim of benefit to a prior filed application is being claimed through an amendment to the specification of the above-identified application (attached and filed concurrently herewith).

The applicants' undersigned representative states the entire delay between the date the priority claim was due under 37 CFR §1.78(a)(2)(ii) and the date the priority claim was filed was unintentional. Original attempt to claim benefit by the original attorney of record in the application did not specify the relationship between the above-identified application and U.S. Serial No. 09/710,156, now U.S. Patent No. 6,928,300.

Per 1268 OG 89, Applicants are clarifying the priority claim after the title to state that the present application is a continuation-in-part of U.S. Serial No. 09/710,156, now U.S. Patent No. 6,928,300. As per the OG, an appropriate Petition and fee also are submitted

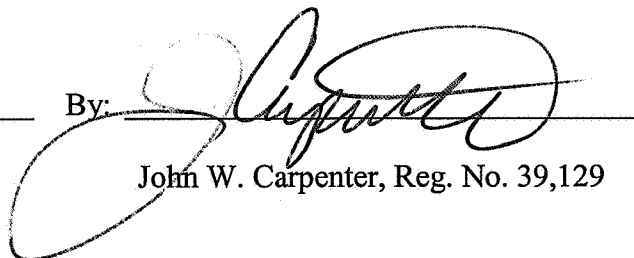

herewith. In addition, an Amendment and Response under 37 CFR § 1.312 also is submitted to amend the specification to include the proper priority claim designation.

Respectfully submitted,  
CRAIG S. SKINNER, et al.
